

TURN YOUR MOBILE DEVICE INTO A
WEATHERTRAK REMOTE CONTROL

MOBILE APP PROVIDES

- Mobile Remote Control of Irrigation
- Remote Access to Controller Status
- Real-Time Alerts and Notifications
- Assists in On-site Troubleshooting and Diagnostics
- Reduces Site Visits and Travel Time
- Easy Navigation
- One Click Connection to HydroPoint Customer Support

The next generation mobile app from HydroPoint turns your Apple iOS or Android device into a remote control, enabling you to manage and operate WeatherTRAK smart irrigation controllers.

WeatherTRAK Mobile 2 is the new anytime, anywhere app, featuring a streamlined user interface with easy to use time saving functionality. New benefits include the ability to change station % adjust, view active alerts and controller status, and pause for rain or other events.
